OVERVIEW TALBOT FAMILY NETWORK:

[Talbot Family Network](#) (TFN) is the Local Management Board (LMB) for Talbot County. LMBs are community-based organizations serving all 23 counties in Maryland, and Baltimore City, focused on improving outcomes for Maryland's children and their families. Programs and strategies that LMBs fund align with Maryland's Children's Cabinet [Three Year Plan](#).

LMBs track performance measures for each funded program or strategy. The state has also "identified several other factors that should be considered as part of the larger picture of meeting community needs and making appropriate investments:

1. **Community Voice** – As each jurisdiction across the State has unique needs, strengths and challenges, it is imperative that the voices of community members are lifted up and weighed when and wherever possible. This should include:
 - People with lived experience
 - People of diverse races, ethnicities and cultural backgrounds
 - People across the lifespan (with a focus on youth voice)
 - Other traditionally marginalized populations within the community
2. **Racial Equity** – Systemic and institutional racism by definition are embedded within our society; government; public service systems and agencies. To that end, it is imperative that all LMBs employ an equity lens in every aspect of their work to ensure inclusivity and to address these systemic inequities that contribute to the marginalization of black, indigenous, and people of color.
3. **Continuous Improvement and Capacity Building** - A key role of LMBs in a community is to act as a 'neutral convener to create an effective system to improve results for children, youth and families'. This role requires that LMBs actively help to build the capacity of organizations to provide high quality programs and achieve outcomes for their customers.¹
